#### Why is this important?

- Thousands of our First Responders who survived that day and then stayed for weeks and months supporting the recovery effort are now facing a new tragedy.
- Thousands of our First Responders are now suffering critical health issues as a consequence of their heroic actions.
- They suffer from respiratory diseases, various forms of cancer (including leukemia and mesothelioma), and other debilitating illnesses.
- Many of the Responders lack adequate health insurance, so many are not receiving adequate care and many are struggling financially.

#### We are the 2nd Responders!

We have a social responsibility! It is now our turn to acknowledge their service and heroism by raising funds and expanding awareness around the health issues that our 9/11 Responders are facing.

You can participate by joining the 2nD Network.
